Published bimonthly by

THE AMERICAN PHYSIOLOGICAL SOCIETY, Washington, D. C.

Contents of Volume XXVI

NO. 1. JANUARY 1963

Depolarization of central terminals of group Ib afferent fibers of muscle. ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS 1
Intracellular recording from motoneurons of the cervical spinal cord of the cat. SCHMIDT, R. F. AND W. D. WILLIS 28
Depolarization of central terminals of afferent fibers in the cervical spinal cord of the cat. SCHMIDT, R. F. AND W. D. WILLIS 44
Respiratory discharge of some vagal motoneurons. EYZAGUIRRE, C. AND J. R. TAYLOR 61
Postnatal development of the transcallosal evoked response in the cerebral cortex of the cat. GRAFSTEIN, B. 79
Functional properties of neurons of the anterior ectosylvian gyrus of the cat. CARRERAS, M. AND S. A. ANDERSSON 100
Acetylcholine and prostigmine electrophoresis at visual cortex neurons. SPEHLMANN, R. 127
Two inhibitory mechanisms in the Mauthner neurons of goldfish. FURUKAWA, T. AND E. J. FURSHPAN 140
The response to vibration of the end organs of mammalian muscle spindles. BIANCONI, R. AND J. P. VAN DER MEULEN 177
Reviews 191
Announcements 192

NO. 2. MARCH 1963

Segmental organization of cortical afferent areas in the cat. CELESIA, G. G. 193
Evoked activity of single neurons in sensory association cortex of the cat. BENTAL, E. AND B. BIHARI 207
Single unit responses in a primitive photoreceptor organ. HERMANN, H. T. AND L. STARK 215
Photically evoked responses in visual cortex units during sleep and waking. EVARTS, E. V. 229
Single-cell responses of the nucleus of the transpeduncular tract in rabbit to monochromatic light on the retina. HILL, R. M. AND E. MARG 249
Longitudinal conduction systems serving spinal and brain-stem coordination. SHIMAMURA, M. AND R. B. LIVINGSTON 258
Further studies on cerebral representation of penile erection: caudal thalamus, midbrain, and pons. MACLEAN, P. D., R. H. DENNISTON, AND S. DUA 273
Some discharge characteristics of single neurons in the inferior colliculus of the cat. I. Tonotopical organization, relation of spike-counts to tone intensity, and firing patterns of single elements. ROSE, J. E., D. D. GREENWOOD, J. M. GOLDBERG, AND J. E. HIND 294
Some discharge characteristics of single neurons in the inferior colliculus of the cat. II. Timing of the discharges and observations on binaural stimulation. HIND, J. E., J. M. GOLDBERG, D. D. GREENWOOD, AND J. E. ROSE 321
Announcements 342

NO. 3. MAY 1963

Organization of auditory, somatic sensory, and visual projection to association fields of cerebral cortex in the cat. THOMPSON, R. F., R. H. JOHNSON, AND J. J. HOOPES 343

Auditory, somatic sensory, and visual response interactions and interrelations in association and primary cortical fields of the cat. THOMPSON, R. F., H. E. SMITH, AND D. BLISS 365

Organization and function of the trigeminal mesencephalic nucleus. JERGE, C. R. 379

The function of the nucleus supratrigeminalis. JERGE, C. R. 393

The inhibitory systems in the olfactory bulb studied by intracellular recording. YAMAMOTO, C., T. YAMAMOTO, AND K. IWAMA 403

Long-lasting nervous system responses to prolonged sound stimulation in waking cats. STARR, A. AND R. B. LIVINGSTON 416

An analogue cross-correlator to study naturally induced activity in intact nerve trunks. CASBY, J. U., R. SIMINOFF, AND T. R. HOUSEKNECHT 432

Unit responses to sound from auditory nerve of the cat. RUPERT, A., G. MOUSHEGIAN, AND R. GALAMBOS 449

The activity of brain-stem respiratory neurons and spinal respiratory motoneurons during swallowing. SUMI, T. 466

The segmental reflex relations of cutaneous afferent inflow to thoracic respiratory motoneurons. SUMI, T. 478

Intracellular recording from thalamic neurons during reticulocortical activation. PURPURA, D. P. AND R. J. SHOFER 494

The location and the mode of action of the presynaptic inhibitory pathways on to group I afferent fibers from muscle. ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS 506

The mode of operation of the synaptic mechanism producing presynaptic inhibition. ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS 523

Reflex regulation of primary (annulospiral) stretch receptors via gamma motoneurons in the cat. WUERKER, R. B. AND E. HENNEMAN 539

NO. 4. JULY 1963

Coding mechanisms of electroreceptor fibers in some electric fish. HAGIWARA, S. AND H. MORITA 551

EEG spindle and depression of gamma motor activity. HONGO, T., K. KUBOTA, AND H. SHIMAZU 568

Acetylcholine sensitivity of cat's medullary neurons. SALMOIRAGHI, G. C. AND F. A. STEINER 581

Acoustic and nonacoustic factors modifying middle-ear muscle activity in waking cats. CARMEL, P. W. AND A. STARR 598

Effects of glucose and oxygen deprivation on function of isolated mammalian retina. AMES, A. III AND B. S. GURIAN 617

Inhibition of discharges into the dorsal and ventral spinocerebellar tracts. ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS 635

Depolarization of the central terminals of cutaneous afferent fibers. ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS 646

Fixation of experience in the rat spinal cord. CHAMBERLAIN, T. J., P. HALICK, AND R. W. GERARD 662

Books Received 674

NO. 5. SEPTEMBER 1963

Influences of the visual cortex upon posteromedial thalamus in the cat. BUSER, P., J. BRUNER, AND R. SINDBERG 677
Studies on the adrenaline-sensitive component of the mesencephalic reticular formation. BAUST, W. AND H. NIEMCZYK 692
Effects of electrical stimulation of the amygdala on hypothalamically elicited attack behavior in cats. EGGER, M. D. AND J. P. FLYNN 705
Gamma-aminobutyric acid and other blocking compounds in Crustacea. I. Central nervous system. DUDEL, J., R. GRYDER, A. KAJI, S. W. KUFFLER, AND D. D. POTTER 721
Gamma-aminobutyric acid and other blocking compounds in Crustacea. II. Peripheral nervous system. KRAVITZ, E. A., S. W. KUFFLER, D. D. POTTER, AND N. M. VAN GELDER 729
Gamma-aminobutyric acid and other blocking compounds in Crustacea. III. Their relative concentrations in separated motor and inhibitory axons. KRAVITZ, E. A., S. W. KUFFLER, AND D. D. POTTER 739
Photosensitivity of a localized region of the frog diencephalon. DODT, E. AND M. JACOBSON 752
A third type of inhibition in the Mauthner cell of goldfish. FURUKAWA, T., Y. FUKAMI, AND Y. ASADA 759
The functional properties of ventrobasal thalamic neurons studied in unanesthetized monkeys. POGGIO, G. F. AND V. B. MOUNTCASTLE 775
The relation of thalamic cell response to peripheral stimuli varied over an intensive continuum. MOUNTCASTLE, V. B., G. F. POGGIO, AND G. WERNER 807

NO. 6. NOVEMBER 1963

Membrane potentials in hypoglossal motoneurons. GREEN, J. D. AND K. NEGISHI 835
Behavioral effect of mammillothalamic tractotomy in cats. THOMAS, G. J., W. J. FRY, F. J. FRY, B. M. SLOTNICK, AND E. E. KRIECKHAUS 857
Recurrent facilitation of frog motoneurons. KUBOTA, K. AND J. M. BROOKHART 877
Responses of cat retinal ganglion cells to exponentially changing light intensities. ENROTH-CUGELL, C. AND R. W. JONES 894
Synaptic mechanisms of excitation and inhibition in the central auditory pathway. NELSON, P. G. AND S. D. ERULKAR 908
Retinal excitation and inhibition from direct electrical stimulation. CRAPPER, D. R. AND W. K. NOELL 924
The effect of changes of the ionic environment upon an isolated crustacean sensory neuron. EDWARDS, C., C. A. TERZUOLO, AND Y. WASHIZU 948
The variability of central neural activity in a sensory system, and its implications for the central reflection of sensory events. WERNER, G. AND V. B. MOUNTCASTLE 958
Effects of visual deprivation on morphology and physiology of cells in the cat's lateral geniculate body. WIESEL, T. N. AND D. H. HUBEL 978
Receptive fields of cells in striate cortex of very young, visually inexperienced kittens. HUBEL, D. H. AND T. N. WIESEL 994
Single-cell responses in striate cortex of kittens deprived of vision in one eye. WIESEL, T. N. AND D. H. HUBEL 1003
Index 1019

INDEX

Acetylcholine
  electrophoretic application to visual cortex neurons, 127
  sensitivity of medullary neurons to, 581
Action potential
  of eighth-nerve fibers, in inhibition of Mauthner cell, 759
Adrenaline
  mesencephalic reticular formation component sensitive to, 692
Afferent fibers: *see also* Nerve fibers
  cutaneous, presynaptic depolarization of, 646
  depolarization of group Ib, 1
  group I from muscle, presynaptic inhibitory pathways, 506
  of lumbosacral cord, depolarization of, 44
Alanine
  concentration in motor and inhibitory axons of Crustacea, 739
  identified in CNS of Crustacea, 721
  identified in peripheral nerves of Crustacea, 729
β-Alanine
  concentration in motor and inhibitory axons of Crustacea, 739
  identified in CNS of Crustacea, 721
  identified in peripheral nerves of Crustacea, 729
AMES, A. III AND B. S. GURIAN. Effects of glucose and oxygen deprivation on function of isolated mammalian retina, 617
γ-Aminobutyric acid
  concentration in motor and inhibitory axons of Crustacea, 739
  identified in CNS of Crustacea, 721
  identified in peripheral nerves of Crustacea, 729
Amygdala
  stimulation of, influence on attack behavior, 705
ANDERSSON, S. A., 100
ASADA, Y., 759
Aspartic acid
  concentration in motor and inhibitory axons of Crustacea, 739
  identified in peripheral nerves of Crustacea, 729
Association cortex
  sensory interactions with primary field, 365
  sensory projection to, 343
Auditory cortex
  central pathways, synaptic mechanisms in, 908
Auditory nerve
  unit responses to sound, 449
Auditory pathways
  responses to prolonged sound stimulation, 416
Auditory stimulus
  response interactions in cortex, 365
Axons: *see also* Nerve fibers
  motor and inhibitory, of Crustacea, concentration of blocking compounds found in, 739

BAUST, W. AND H. NIEMCZYK. Studies on the adrenaline-sensitive component of the mesencephalic reticular formation, 692
Behavior
  attack, amygdaloid influences on, 705
  mammillothalamic tractotomy effect on, 857
BENTAL, E. AND B. BIHARI. Evoked activity of single neurons in sensory association cortex of the cat, 207
Betaine
  concentration in motor and inhibitory axons of Crustacea, 739
  identified in CNS of Crustacea, 721
  identified in peripheral nerves of Crustacea, 729
BIANCONI, R. AND J. P. VAN DER MEULEN. The response to vibration of the end organs of mammalian muscle spindles, 177
BIHARI, B., 207
Binaural stimulation
  unit activity in inferior colliculus, 321
BLISS, D., 365
Blocking compounds: *see also* Alanine; β-Alanine; γ-Aminobutyric acid; Aspartic acid; Betaine; Glutamine; Homarine; Taurine; Unidentified
  identified
    in CNS of Crustacea, 721
    in peripheral nervous system of Crustacea, 729
  unidentified
    in CNS of Crustacea, 721
    in peripheral nervous system of Crustacea, 729

Brain: *see* Spinal cord; individual parts of brain
Brain stem: *see also* Mesencephalon; Pons
respiratory neurons during swallowing, 466
sensorimotor coordination mechanisms, 258
BROOKHART, J. M., 877
BRUNER, J., 677
BUSER, P., J. BRUNER, AND R. SINDBERG. Influences of the visual cortex upon posteromedial thalamus in the cat, 677

CARMEL, P. W. AND A. STARR. Acoustic and nonacoustic factors modifying middle-ear muscle activity in waking cats, 598
CARRERAS, M. AND S. A. ANDERSSON. Functional properties of the neurons of the anterior ectosylvian gyrus of the cat, 100
CASBY, J. U., R. SIMINOFF, AND T. R. HOUSEKNECHT. An analogue cross-correlator to study naturally induced activity in intact nerve trunks, 432
CELESIA, G. G. Segmental organization of cortical afferent areas in the cat, 193
Centrum medianum
influence of visual cortex upon, 677
Cerebral cortex
afferent areas, segmental organization of, 193
association areas, single-unit response to sensory stimuli, 207
association fields, responses to sensory stimuli, 343
interaction between association cortex responses to sensory stimuli, 365
postnatal transcallosal evoked response in, 79
somatosensory area II, properties of, 100
CHAMBERLAIN, T. J., P. HALICK, AND R. W. GERARD. Fixation of experience in the rat spinal cord, 662
Corpus callosum
correlation of myelinization and transcallosal response, 79
postnatal evoked response in cerebral cortex, 79
CRAPPER, D. R. AND W. K. NOELL. Retinal excitation and inhibition from direct electrical stimulation, 924
Cross-correlation
study of activity in nerve trunks by, 432
Crustacea
concentration of blocking compounds found in motor and inhibitory axons of, 739
synaptic blocking agents in, 721, 729

DENNISTON, R. H., 273
Depolarization: *see also* Postsynaptic potentials
central, of Ib afferent fibers, 1
primary afferent, cervical spinal cord, 44
Diencephalon
frog, photosensitivity of localized region of, 752
Dihydro-β-erythroidine
electrophoretic application to visual cortex neurons, 127
sensitivity of medullary neurons to, 581
DODT, E. AND M. JACOBSON. Photosensitivity of a localized region of the frog diencephalon, 752
Dorsal root stimulation
in analysis of cortical afferent areas, 193
DUA, S., 273
DUDEL, J., R. GRYDER, A. KAJI, S. W. KUFFLER, AND D. D. POTTER. Gamma-aminobutyric acid and other blocking compounds in Crustacea. I. Central nervous system, 721

Ear
middle-ear muscle activity, modifying factors, 598
ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS. Depolarization of central terminals of group Ib afferent fibers of muscle, 1
ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS. Depolarization of the central terminals of cutaneous afferent fibers, 646
ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS. Inhibition of discharges into the dorsal and ventral spinocerebellar tracts, 635
ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS. The location and the mode of action of the presynaptic inhibitory pathways on to group I afferent fibers from muscle, 506
ECCLES, J. C., R. F. SCHMIDT, AND W. D. WILLIS. The mode of operation of the synaptic mechanism producing presynaptic inhibition, 523
EDWARDS, C., C. A. TERZUOLO, AND Y. WASHIZU. The effect of changes of the ionic environment upon an isolated crustacean sensory neuron, 948
EEG spindle
and gamma motoneuron depression, 568
EGGER, M. D. AND J. P. FLYNN. Effects of electrical stimulation of the amygdala on hypothalamically elicited attack behavior in cats, 705
Electroreceptor fibers
of electric fish, coding mechanisms of, 551
ENROTH-CUGELL, C. AND R. W. JONES. Re-

sponses of cat retinal ganglion cells to exponentially changing light intensities, 894
ERULKAR, S. D., 908
EVARTS, E. V. Photically evoked responses in visual cortex units during sleep and waking, 229
Evoked potentials
transcallosal in cerebral cortex, postnatal development of, 79
Excitation
postsynaptic, of thalamic neurons, 494
retinal, from direct electrical stimulation, 924
synaptic mechanisms of, in auditory paths, 908
Experience: *see* Learning
EYZAGUIRRE, C. AND J. R. TAYLOR. Respiratory discharge of some vagal motoneurons, 61

Facilitation
recurrent, of frog motoneurons, 877
Firing patterns
single neurons in inferior colliculus, 294
FLYNN, J. P., 705
FRY, F. J., 857
FRY, W. J., 857
FUKAMI, Y., 759
FURSHPAN, E. J., 140
FURUKAWA, T., Y. FUKAMI, AND Y. ASADA. A third type of inhibition in the Mauthner cell of goldfish, 759
FURUKAWA, T. AND E. J. FURSHPAN. Two inhibitory mechanisms in the Mauthner neurons of goldfish, 140

GALAMBOS, R., 449
Gallamine triethiodide
sensitivity of medullary neurons to, 581
Gamma motoneurons
EEG spindle and depression of, 568
in reflex control of primary stretch receptors, 539
Gamma motor system: *see* Gamma motoneurons
Geniculate body
lateral, visual deprivation effect on, 978
Genital function
penile erection, studied by electrical stimulation of caudal thalamus, midbrain, and pons, 273
GERARD, R. W., 662
Glucose
deprivation of, effect on retinal function, 617
Glutamine
concentration in motor and inhibitory axons of Crustacea, 739
identified in peripheral nerves of Crustacea, 729
GOLDBERG, J. M., 294, 321
GRAFSTEIN, B. Postnatal development of the transcallosal evoked response in the cerebral cortex of the cat, 79
GREEN, J. D. AND K. NEGISHI. Membrane potentials in hypoglossal motoneurons, 835

HALICK, P., 662
HENNEMAN, E., 539
HERMANN, H. T. AND L. STARK. Single unit responses in a primitive photoreceptor organ, 215
Hexamethonium
sensitivity of medullary neurons to, 581
HILL, R. M. AND E. MARG. Single-cell responses of the nucleus of the transpeduncular tract in rabbit to monochromatic light on the retina, 249
HIND, J. E., 294
HIND, J. E., J. M. GOLDBERG, D. D. GREENWOOD, AND J. E. ROSE. Some discharge characteristics of single neurons in the inferior colliculus of the cat. II. Timing of the discharges and observations on binaural stimulation, 321
Homarine
concentration in motor and inhibitory axons of Crustacea, 739
identified in peripheral nerves of Crustacea, 729
HONGO, T., K. KUBOTA, AND H. SHIMAZU. EEG spindle and depression of gamma motor activity, 568
HOOPES, J. J., 343
HOUSEKNECHT, T. R., 432
Hypothalamus
attack behavior inhibited by amygdaloid stimulation, 705
HUBEL, D. H., 978, 1003
HUBEL, D. H. AND T. N. WIESEL. Receptive fields of cells in striate cortex of very young, visually inexperienced kittens, 994

Inferior colliculus
unit activity in, 294, 321
binaural stimulation, 321
firing patterns, 294
spike-counts to tone intensity, 294
timing of discharges, 321
tonotopical organization, 294

Inhibition
afferent, by depolarization of presynaptic terminals, 28
afferent, of central terminals of group Ib fibers, 1
in Crustacea, study of, 721, 729
mechanisms of, in Mauthner neurons, 140
of cells of origin of spinocerebellar tracts, 635
of olfactory bulb following electrical stimulation, 403
presynaptic
in cervical spinal cord, 44
cutaneous afferent fibers, 646
mode of action, 506
synaptic mechanism producing, 523
postsynaptic, of thalamic neurons, 494
retinal, from direct electrical stimulation, 924
synaptic mechanisms of, in auditory paths, 908
third type in Mauthner cell, 759
Inhibitory synapses: *see* Synapse, inhibitory
Ionic changes
effect on crustacean stretch receptor neuron, 948

Power law
going stimulus-response relation for thalamic cells, 807
Prostigmine
electrophoretic application to visual cortex neurons, 127
PURPURA, D. P. AND R. J. SHOFER. Intracellular recording from thalamic neurons during reticulocortical activation, 494

Receptor fibers
in electric fish, coding mechanisms, 551
Respiration
vagal motoneuron discharge in phase with, 61
Respiratory gases
effect on vagal motoneurons, 61
Respiratory neurons
activity during swallowing, 466
Reticular activating system: *see* Reticular formation
Reticular formation
mesencephalic, adrenaline-sensitive component of, 692
Reticulocortical activation
role of thalamic neurons in, 494
Retina
discharge pattern of ganglion cells in varying light intensity, 894
excitation and inhibition from direct electrical stimulation, 824
transpeduncular tract response to monochromatic light upon, 249
Retinal function
glucose and O_2 deprivation on, 617
Retinal ganglion cells
response to changing light intensity, 894
ROSE, J. E., 321
ROSE, J. E., D. D. GREENWOOD, J. M. GOLDBERG, AND J. E. HIND. Some discharge characteristics of single neurons in the inferior colliculus of the cat. I. Tonotopical organization, relation of spike-counts to tone intensity, and firing patterns of single elements, 294
RUPERT, A., G. MOUSHEGIAN, AND R. GALAMBOS. Unit responses to sound from auditory nerve of the cat, 449

SALMOIRAGHI, G. C. AND F. A. STEINER. Acetylcholine sensitivity of cat's medullary neurons, 581
SCHMIDT, R. F., 1, 506, 523, 635, 646
SCHMIDT, R. F. AND W. D. WILLIS. De-

polarization of central terminals of afferent fibers in the spinal cord of the cat, 44
SCHMIDT, R. F. AND W. D. WILLIS. Intracellular recording from motoneurons of the cervical spinal cord of the cat, 28
Sensorimotor coordination
longitudinal spinal conduction systems serving, 258
Sensory stimuli
association cortex responses to, organization and distribution of, 343
interactions and interrelations in association and primary cortical fields, 365
single-unit response of association cortex to, 207
Sensory systems: *see also* Receptors; specific systems
central neural activity in, variability of and implication in sensory events, 958
thalamocortical input, static properties, 775
thalamocortical input, stimulus-response relations in, 807
SHIMAMURA, M. AND R. B. LIVINGSTON. Longitudinal conduction systems serving spinal and brain-stem coordination, 258
SHIMAZU, H., 568
SHOFER, R. J., 494
SIMINOFF, R., 432
SINDBERG, R., 677
Skin afferents
projection upon thoracic motoneurons, 478
SLOTNICK, B. M., 857
SMITH, H. E., 365
Somatic afferent systems: *see* Sensory systems
Somatosensory area I
segmental arrangement in, 193
Somatosensory area II
properties of, by single-unit analysis, 100
segmental arrangement in, 193
Somatosensory stimulus
response interactions in cortex, 365
Sound factors
modifying middle-ear muscle activity, 598
Sound stimulation
auditory responses to prolonged, 416
primary auditory unit responses to, 449
SPEHLMANN, R. Acetylcholine and prostigmine electrophoresis at visual cortex neurons, 127
Spinal cord
cervical, activity studied by intracellular recording from motoneurons, 28
cervical, depolarization of afferent fibers, 44
fixation of experience in, 662
sensorimotor coordination mechanisms, 258
Spike-counts
timing of discharge in inferior colliculus, 321
tone intensity in inferior colliculus, 294
Spinal motoneurons
respiratory, activity during swallowing, 466
thoracic respiratory, projection of skin afferents upon, 478
Spinocerebellar tract
dorsal, inhibition of cells of origin, 635
ventral, inhibition of cells of origin, 635
STARR, A., 598
STARR, A. AND R. B. LIVINGSTON. Long-lasting nervous system responses to prolonged sound stimulation in waking cats, 416
STARK, L., 215
STEINER, F. A., 581
Stimulus-response relation
for ventrobasal thalamic neurons, 807
Stretch receptors
crustacean, effect of ionic changes on, 948
primary (annulospiral), reflex control by gamma motoneurons, 539
Striate cortex: *see* Visual cortex
SUMI, T. The activity of brain-stem respiratory neurons and spinal respiratory motoneurons during swallowing, 466
SUMI, T. The segmental reflex relations of cutaneous afferent inflow to thoracic respiratory motoneurons, 478
Swallowing
respiratory neuron activity during, 466
Synapse, inhibitory
presynaptic pathways on to group I afferent fibers, 506
Synaptic mechanisms
action of recurrent collaterals upon, 877
excitatory and inhibitory, in auditory paths, 908
producing presynaptic inhibition, 523

Taurine
concentration in motor and inhibitory axons of Crustacea, 739
identified in CNS of Crustacea, 721
identified in peripheral nerves of Crustacea, 729
TAYLOR, J. R., 61
TERZUOLO, C. A., 948
Thalamus
electrical stimulus in penile erection, 273
mammillothalamic tractotomy, behavioral effects of, 857
posteromedial, visual cortex influence on, 677

ventrobasal complex in unanesthetized monkeys, 775
